PROJECTS

- **Student Grading System (March 2014 - April 2014)** Manages students' grades and enrollment, and features multiple user roles. Developed on a LAMP stack.
- **Startup Project Pinecone (May 2012 - January 2013)** An attempt at producing a crowd-sourced documentary and independent film streaming service built on Ruby on Rails.
- **Personal Website / Blog (2005 -)** My personal website has gone through several different iterations over the years, progressing between static HTML+CSS, WordPress, Drupal, and Jekyll implementations.
